PLANT DESIGNS

PLANT. NURTURE. BLOOM

Biophilia: the human need for a connection with nature.

When we're surrounded by nature, we feel happy and healthy. Our stress levels decrease, while productivity and creativity and are on the up. Yet in the city we're often deprived of this natural connection, with many urban residents experiencing a lack of greenery in their day-to-day lives. But it doesn't have to be this way.

Plant Designs is a biophilic design company, installing and caring for impactful greenery based displays across London. We design and install bespoke schemes that are guaranteed to make an impression, and with our huge range of options, you're bound to find something you like.

Plant. Nurture. Bloom.

WHAT WE DO

Plants are at the heart of what we do, but that doesn't hold us back from offering a huge range of services. From greenery to blooms, indoors to outdoors, year-round to seasonal displays.

Each and every service we offer is carried out by a dedicated team of designers and horticulturists, meaning you get a specialised experience from start to finish.

Preserved

Events

WHY US

Simply put, we know what we're doing. Our design expertise and horticultural knowledge is second to none, meaning you can rest assured that your planting is in (very) safe hands.

Locally Based

Any time you want to chat with a friendly face, or just want to pop by to see our products in person, we're never too far away.

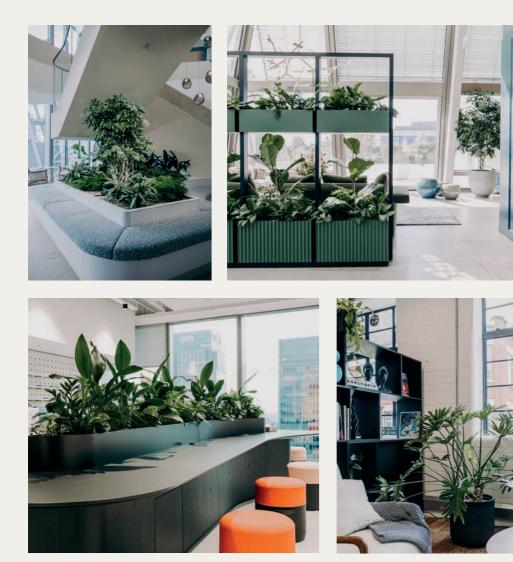

We are constantly thinking up new ways and ideas to work with our clients and incorporate plants into their spaces.

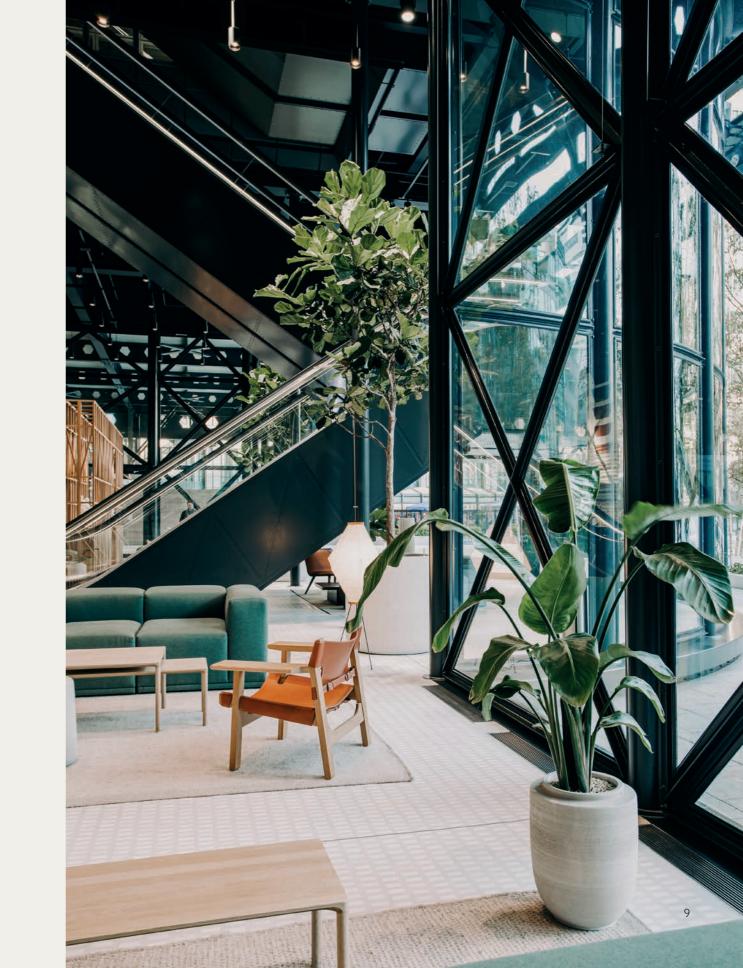

Independent

Not only have we been running for over 20 years, but we are one of the only remaining independent plant companies to serve London.

INDOOR PLANTS

Whether you're new to greenery or looking to increase your collection, we're here to help you experience all of the benefits that indoor plants have to offer, from reduced stress levels and increased creativity through to better air quality. Staff and visitors will immediately notice the difference, finding a sense of calm and inspiration in their new, green surroundings.

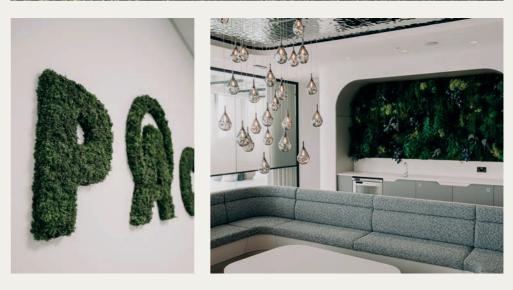

"From the initial design consultation through to installation and ongoing aftercare, Plant Designs always deliver the very best at every stage"

Emma Property Manager

PRESERVED

We know living plants aren't always the correct option for your space, whether this is due to low light levels, decreased airflow or reduced access for maintenance. But, with our range of 100% natural and real preserved plants and moss designs, your space can be transformed into a haven of greenery, no matter the environment.

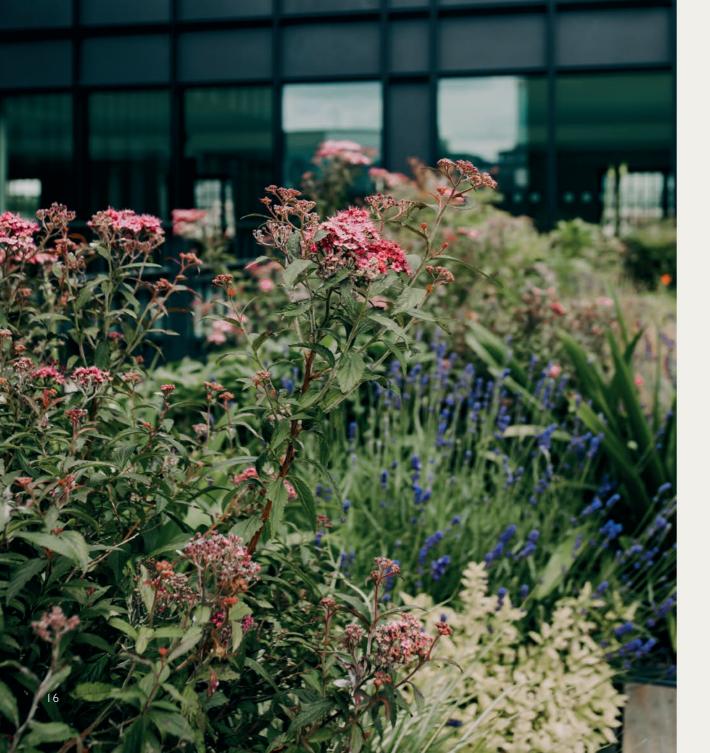

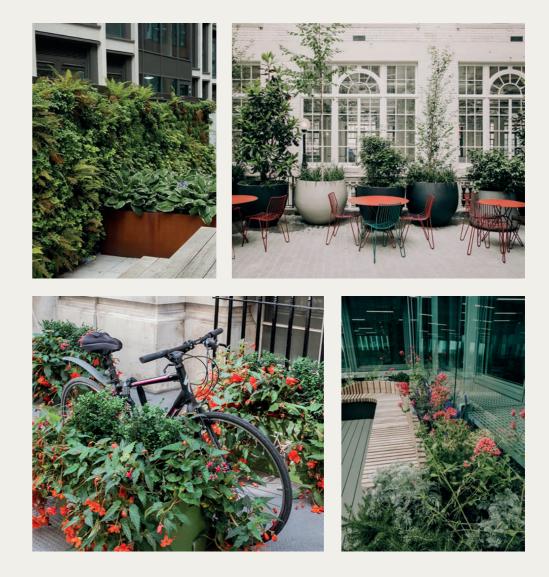

BLOOM

Bloom is our subscription programme, offering flowering plants on a rotational basis. Expertly crafted using stunning seasonal plants, our displays can last for up to three months, making them a cost-effective way to brighten up spaces such as reception areas, galleries, and meeting rooms and a sustainable alternative to cut flowers.

OUTDOOR PLANTS

Sometimes, it's what's on the outside that counts. By introducing fresh plants to your outdoor areas, we can create beautiful pockets of nature for your team to enjoy, something we all need in the city. From roof terraces to window boxes, we can design and maintain year-round greenery for your outside spaces. The Plant Designs team turned our complex interior landscaping vision into a reality, exceeding all expectations the design team had.

EVENT HIRE

Looking to commemorate events throughout the year? You've come to the right place. With our calendar of seasonal designs, we'll add a unique and natural flourish to your space, perfect for reception areas, lobbies and even meeting rooms. Or, why not go completely bespoke and have something that reflects your company and team members.

WORKSHOPS

We offer a range of plant workshops run by our green fingered experts. From kokedama making and moss art, through to seasonal garlands and plant care sessions, these fun and interactive workshops are great for your next team building day, or just the perfect excuse for a get together.

Every festive season, the Plant Designs elves take over the city of London to install beautiful Christmas displays, from festive rings all the way up to incredible 26ft trees. Our award-winning decor schemes are designed in-house by our talented creative team, who are also here to provide inspiration if you're looking to create something more bespoke.

CHRISTMAS

OUR TEAM

Plant Designs has been at the forefront of London's plant scene for over twenty years now, and that's down to our passion and expertise. From the client manager who spends every spare moment in their allotment to the horticulturist who's been gardening for over forty years, at Plant Designs we're all in it for one thing – the plants.

OUR PLANTS

Though our installations may seem effortless, your plants don't grow overnight! We work closely with a team of growers in Holland, many of whom have been in the industry for decades. We only provide our clients with the very best plants, which is why we're so selective about the suppliers we use.

Our central London showroom is easy to get to and showcases a range of our services, from potted plants and preserved designs, through to festive displays in our hidden grotto. If you fancy popping by, get in touch to book an appointment.
